

Technology and Telecommunications

TECHNOLOGY MISSION

The mission of the Technology Department of Walla Walla Public Schools is to prepare individuals who are able to utilize current and emerging technologies as tools for learning, teaching, living and working.

TECHNOLOGY GOAL

The goal of the Technology Department of Walla Walla Public Schools is to provide technological tools which can enhance performance for students giving them the opportunity to write, think, reason and communicate more powerfully.

TECHNOLOGY VISION

Networking is not a sufficient goal in itself, equipment installations must be followed with adequate amounts of technical support, staff development and curriculum integration.
